Credentials

Detect and retrieve compromised credentials in real-time

81% of breaches use stolen or weak passwords

Our Credentials module provides actionable intelligence around leaked, stolen and sold user credentials. We find the compromised credentials in real-time on the open, deep and Dark Web, along with information about relevant malware used to steal the information.

Blueliv's sinkholes, honeypots, crawlers and sensors are continuously searching for your stolen credentials, helping eliminate blind spots in your threat landscape.

What business benefits does it deliver?

1. Vastly reduce costs associated with incident detection and remediation

2. Reduce chances of suffering data breaches caused by stolen credentials

3. Mitigate the impact of GDPR penalties – mishandling data breaches could cost you €20 million or up to 4% of your annual turnover

What does it do?

- Automatically detects compromised IPs and domains, plus identification and classification of malware infections

- Discovers compromised user credentials with access to your systems

- Enhances visibility of crime servers, rapidly reduces exploitation time by adversaries and improves incident response time
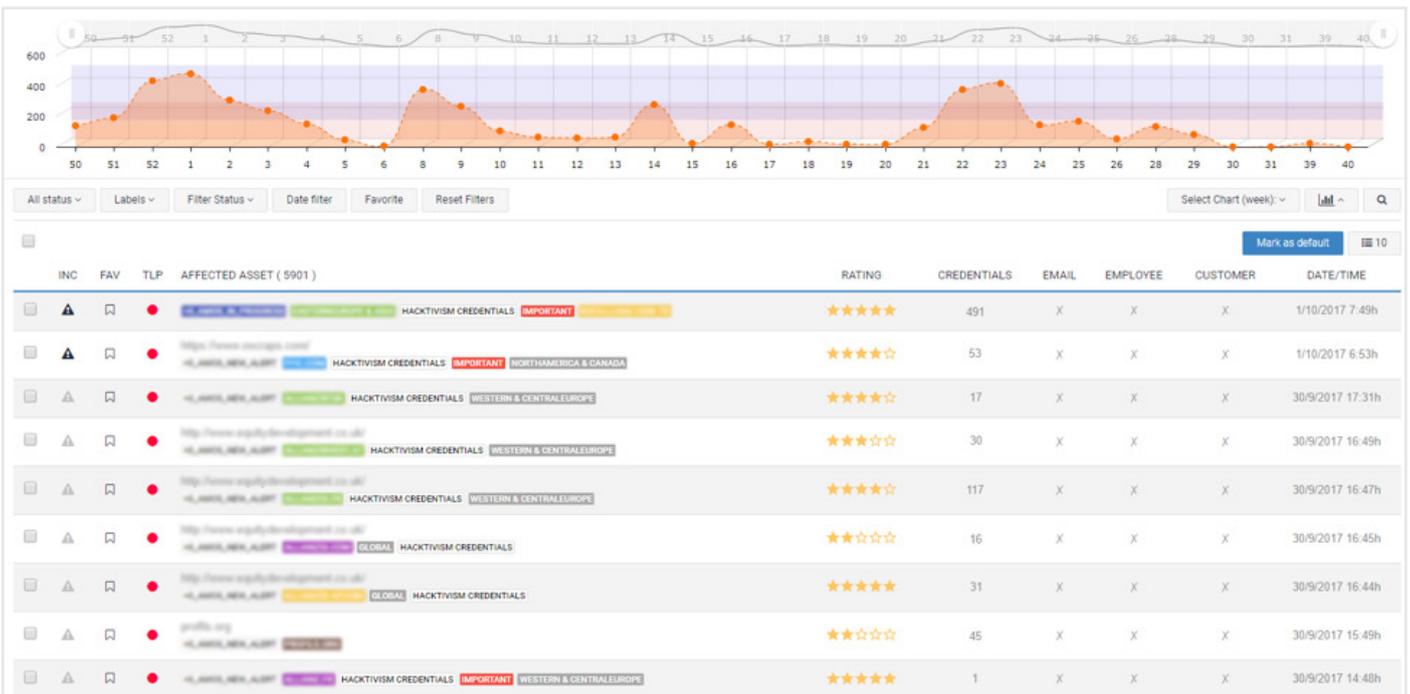

About Blueliv

Blueliv is a leading cyberthreat intelligence provider, headquartered from Barcelona, Spain. We scour the open, deep and dark web to deliver fresh, automated and actionable threat intelligence to organizations, helping protect their networks from the outside in. Blueliv's scalable cloud-based technology turns global threat data into sophisticated, relevant intelligence. We enable organizations to save time and resource by accelerating incident response performance, providing user-friendly evidence accessible to all levels within cybersecurity operations teams. Our pay-as-you-need solution delivers an accelerated, predictive view of the threat landscape in real-time. We do not believe in a one-size-fits-all approach, and work together to configure a modular solution bespoke to your needs using separate intelligence modules, all backed up by our world-class in-house analyst team. Blueliv has been named 'Threat Intelligence Company of the Year' by Cybersecurity Breakthrough Awards, a Gartner 'Cool Vendor,' and Go-Ignite winner, in addition to holding affiliate membership of FS-ISAC for several years.
