Domain Protection

Track illegitimate entities and enhance domain protection

Phishing attacks are one of the most common methods used to steal valuable personal information

Fraudulent domains are a risk to your organizations and your end customers, with the goal of stealing information or damaging your brand.

Our Domain Protection module combats both phishing and cybersquatting attacks by proactively detecting attempts to acquire sensitive information.

This intelligence allows for countermeasures to be taken to protect your organization and your end customers.
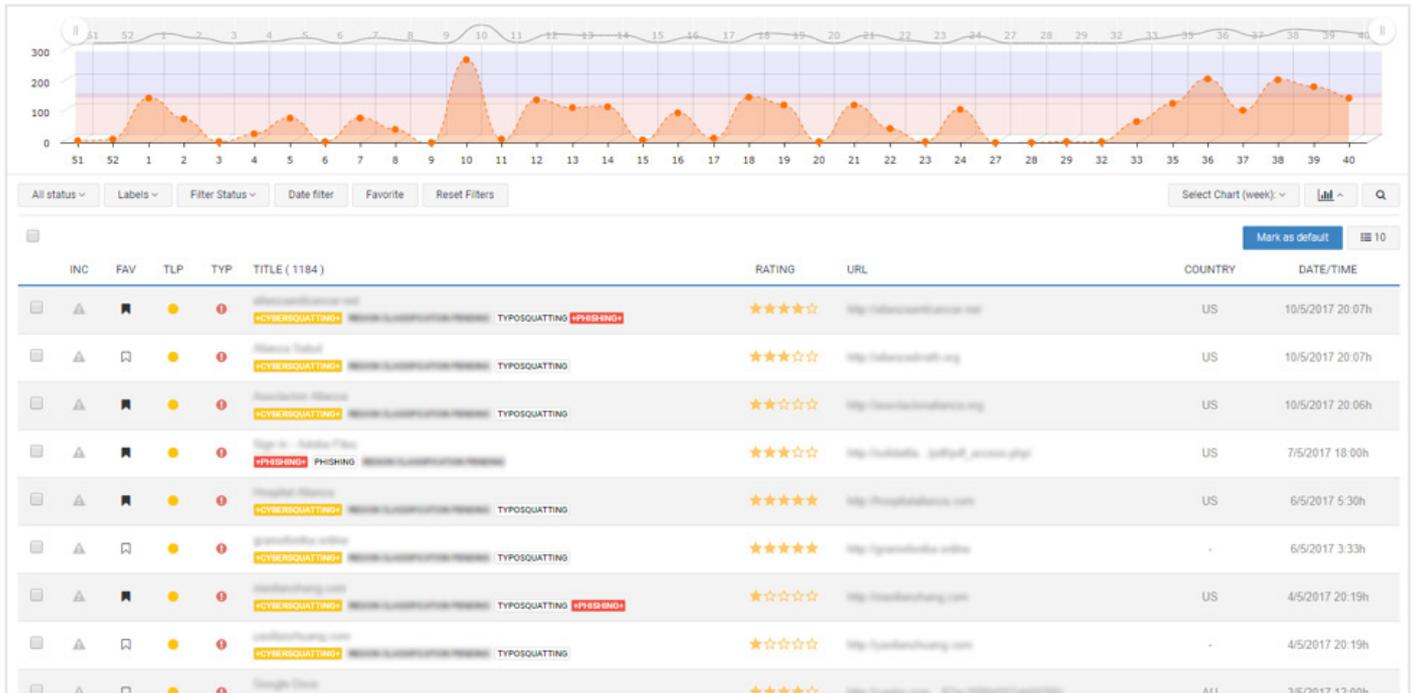

What business benefits does it deliver?

1. Maintain confidence in your brand by identifying domains masquerading as a trusted website or those similar to your own

2. Reduce financial losses from fraud or compliance incidents

3. Improve your internal security tools and employee security knowledge

What does it do?

- Provides automated detection of malicious sites, enabling fast and effective remediation

- Dashboard provides detailed phishing attack information, helps identify trends, potential risk factors and generates remediation advice

About Blueliv

Blueliv is a leading cyberthreat intelligence provider, headquartered from Barcelona, Spain. We scour the open, deep and dark web to deliver fresh, automated and actionable threat intelligence to organizations, helping protect their networks from the outside in. Blueliv's scalable cloud-based technology turns global threat data into sophisticated, relevant intelligence. We enable organizations to save time and resource by accelerating incident response performance, providing user-friendly evidence accessible to all levels within cybersecurity operations teams. Our pay-as-you-need solution delivers an accelerated, predictive view of the threat landscape in real-time. We do not believe in a one-size-fits-all approach, and work together to configure a modular solution bespoke to your needs using separate intelligence modules, all backed up by our world-class in-house analyst team. Blueliv has been named 'Threat Intelligence Company of the Year' by Cybersecurity Breakthrough Awards, a Gartner 'Cool Vendor,' and Go-Ignite winner, in addition to holding affiliate membership of FS-ISAC for several years.
