# Hacktivism

Monitor global hacktivism operations

Preventing or reducing outages minimizes disruption for your business

Monitor global hacktivism activity on social networks and the open and Dark Web to protect your organization.

Knowing when criminals plan on disrupting your business is critical information when it comes to protecting your employees, assets and brand reputation.

Our automated solution tracks and monitors hacktivist operations and exploits that can affect your infrastructure.

Using an advanced early-warning system and active geolocator, the module generates targeted threat intelligence to shield against potential attack vectors.

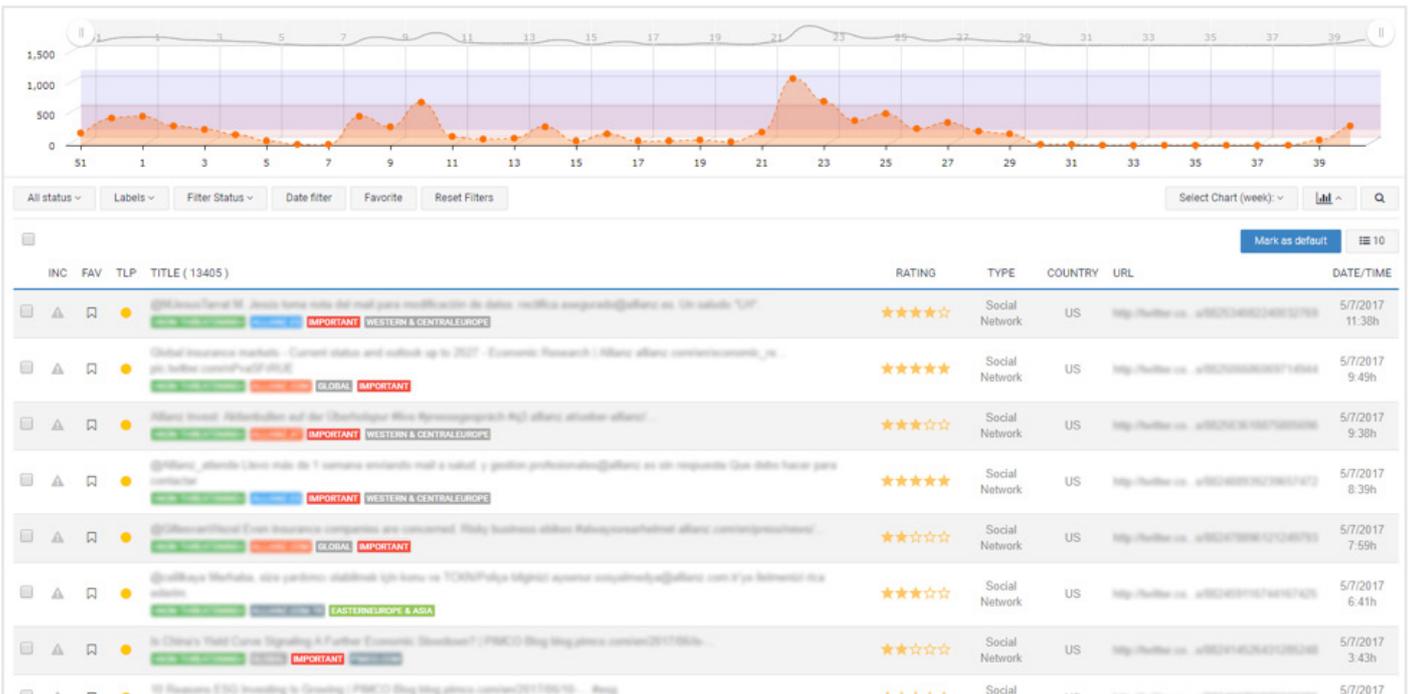

What business benefits does it deliver?

• Protect your networks, devices and employees from social-borne attacks

• Defend against disruption to your business activities, both in digital and the physical world

• Maintain your reputation by detecting and remediating hacktivist activity before it causes serious damage

What does it do?

- Proactive targeting of hacktivist threats, including potential exploits and zero-day attacks against your infrastructure

- Preserves information and data that can be used as evidence against hacktivists

- Creates a comprehensive and easy-to-understand overview of threats, including active geolocation trackers and an advanced early-warning system

About Blueliv

Blueliv is a leading cyberthreat intelligence provider, headquartered from Barcelona, Spain. We scour the open, deep and dark web to deliver fresh, automated and actionable threat intelligence to organizations, helping protect their networks from the outside in. Blueliv's scalable cloud-based technology turns global threat data into sophisticated, relevant intelligence. We enable organizations to save time and resource by accelerating incident response performance, providing user-friendly evidence accessible to all levels within cybersecurity operations teams. Our pay-as-you-need solution delivers an accelerated, predictive view of the threat landscape in real-time. We do not believe in a one-size-fits-all approach, and work together to configure a modular solution bespoke to your needs using separate intelligence modules, all backed up by our world-class in-house analyst team. Blueliv has been named 'Threat Intelligence Company of the Year' by Cybersecurity Breakthrough Awards, a Gartner 'Cool Vendor,' and Go-Ignite winner, in addition to holding affiliate membership of FS-ISAC for several years.
